

MOVIE SCHEDULE for group presentations 2008-2009

These movies will be the basis for the presentations made by each pupillage group during the Inn year. Members of the non-presenting groups are encouraged to watch the movies in the weeks before each presentation. Where do you obtain the movies to watch them at home or on your computer? Well, NETFLIX.com is a great source for movies, to receive in the mail, or to play instantly on your computer. The library has many of the movies we are using this year. Others have downloaded movies from perfectly legal online sites like <http://www.real.com/dmm/superpass/movie> or similar sources you can find by a quick Google search (try “movies instant download” as search terms). You can buy most of these movies from online sources, like AMAZON.com, if you’d like to own them. There are probably other sources unknown to this technology-impaired scribe. Please use any method you like to participate in our “law-theme” movie programs this year. Thanks!
